Dear Anne,

Please excuse this delay in thanking you for the transcripts with your 12/2.

Just as it was delivered we were visited by a dear friend who is a history prof. at Hood College, he wanted to read those transcripts and copy what he might use in his class on the politics of assassination, and he then got bogged down with the end of the semester, tests, grading, etc. I just got them back.

And I am glad to have them. I've just skimmed them and will read them when I've more uninterrupted time. As I presume you noticed, they are not complete. There were calls the transcripts of which were not disclosed.

Hope your exploits with chicken were as gratifying as they can be.

We hope you have a good holiday season,

Harold
